Importance: High

Hi Jordan,

Attached you will find the BE appendices that Colleen sent, as well as the two reduced tables that Katie and I put together for EFED, and finally the PRD Internal mitigation outline from where we pulled the crop by crop mitigation from.

Please let me know if you need help or have any questions,

Thanks,

Matt

Subject: RE: Quick Regroup on Neonics ESA Discussions

Hi Matt –

Attached are the 3 usage appendices for the neonics that have the crosswalk of UDL names to the use site for both Ag and non Ag. The crosswalk is in table at the end of each of the documents. The columns marked as “CONUS UDL” and “NL48 UDL” are what we report out for overlap results with the species range (e.g., CONUS_Vegetables and Ground Fruit, NL48_Ag, etc.).

Let me know if that is what you are looking for or if you need something else.

Thanks!
Colleen

Subject: Quick Regroup on Neonic ESA Discussions

When: Wednesday, October 27, 2021 4:00 PM-4:30 PM (UTC-05:00) Eastern Time (US & Canada).

Where: Microsoft Teams Meeting

Hi Kris,

As you likely saw from my emails yesterday, I think there is some confusion over the working discussions for the neonics. Can we have a quick chat to regroup before the next working discussion?

Thank you,

Matt
